# MSF

**MS in Finance | A new level of clarity.**

**No. 6**

**FOR PRE-EXPERIENCE**  
**MS IN FINANCE**  
*Financial Times, 2017*

## Finance, a Simon forte.

**Simon is one of the world's top business schools for finance.** Students in our highly selective MS in Finance program learn from the best of the best—faculty who lead the way in finance research and scholarship.

With a strong foundation in economics, the MS in Finance curriculum includes financial accounting, financial statement analysis, capital budgeting and corporate objectives, investments, corporate finance, and fixed-income securities. In our newly renovated Bloomberg Finance Lab, students have instant access to the same financial news as the World's leading banks and corporations allows students to sharpen their analytical skills and make decisions based on real-world data.

Our program graduates stand out from the start. They excel at the level of financial analysis in demand at the world's foremost firms. And savvy about today's business environment, Simon graduates are all-in team players—with collaborative skills as leaders and problem solvers.

## STEM ready.

Science, Technology, Engineering and Mathematics (STEM) fields are essential to US economic competitiveness and growth. Under STEM classification, our talented international graduates can qualify for a 24 month extension to their OPT (Optional Practical Training), giving them the option to work in the US for 3 years before H1B sponsorship would be required.

## We look forward to connecting you with top MS talent.

Our students are available for full-time positions, and all Simon programs offer internship options.

## Distinctions.

Simon is home to the peer-reviewed *Journal of Financial Economics*, one of the top three finance journals in the world.
